

Connected fleet management solutions on one unified platform

Unlock the power of International® factory-installed telematics on the Samsara Connected Operations Cloud – free of installation or hardware requirements.

VISIBILITY AND INSIGHT INTO YOUR FLEET, MADE EASY

Cloud-based, turnkey integration allows you to seamlessly connect data from your fleet of International® trucks to the Samsara dashboard, with just a click of a button. Elevate your fleet management experience with frictionless data analysis and consolidation on one integrated dashboard. Discover actionable insights with real-time data at your fingertips and power your most business-critical workflows with maximum efficiency.

Compatible with any International® Class 6-8 Trucks equipped with second generation factory-installed telematics device, including LT® Series, RH® Series, and LoneStar® models.
